Next steps and resources

Speakers

unit4.com

Vidhi Abbi

Solutions Engineering Leader,
Docebo

Nancy Guttridge

Global Product Marketing
Manager Unit4

Katarzyna Jaśniewicz

Product Lead HCM, Unit4

Poll question

Which outcome would you value most from an integrated HCM and Learning solution?

Options

A

Faster employee onboarding

B

Better employee growth and retention

C

Easier compliance and certification tracking

D

More effective career and succession planning

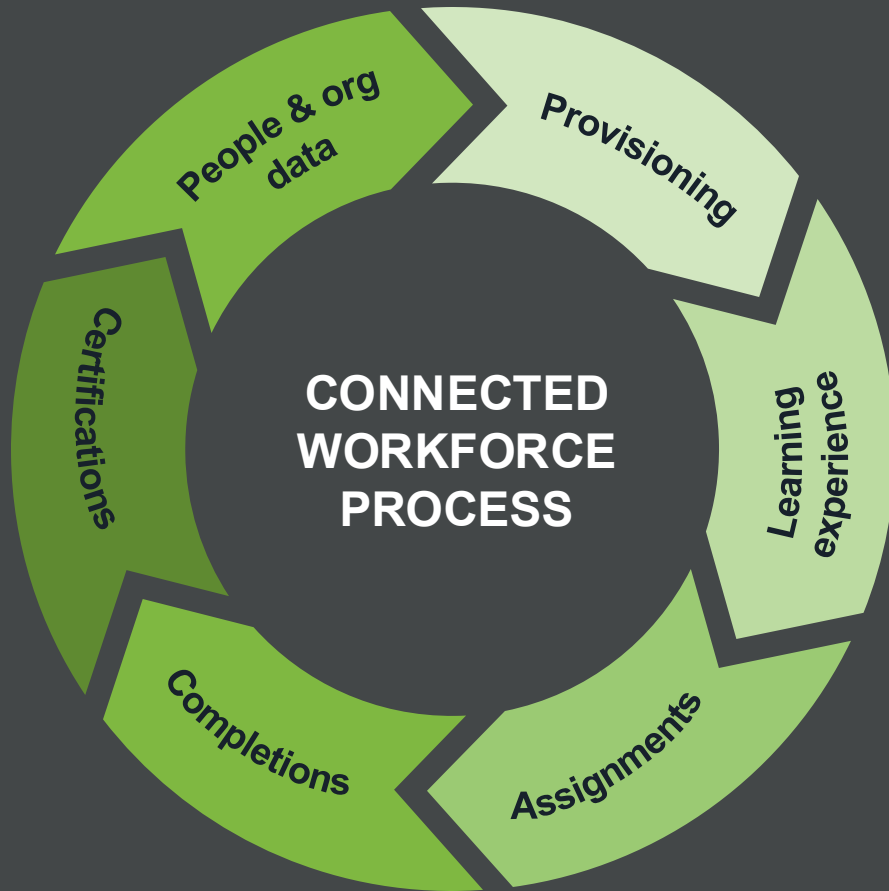

Automation at every employee moment

A consistent data flow reduces administration as people join, move, develop and leave.

The differentiator is not Docebo alone. It is **learning connected to Unit4 HCM.**

The HCM suite turns learning into a workforce process

Unit4 ERPx

Trusted people and organization data

Connection

User provisioning, employment and organizational data synchronization and certification flows

Learn Plus by Docebo

Learning, content, assignments and completions

Employee data > Learning experience > Certification visibility

Growth starts on day one

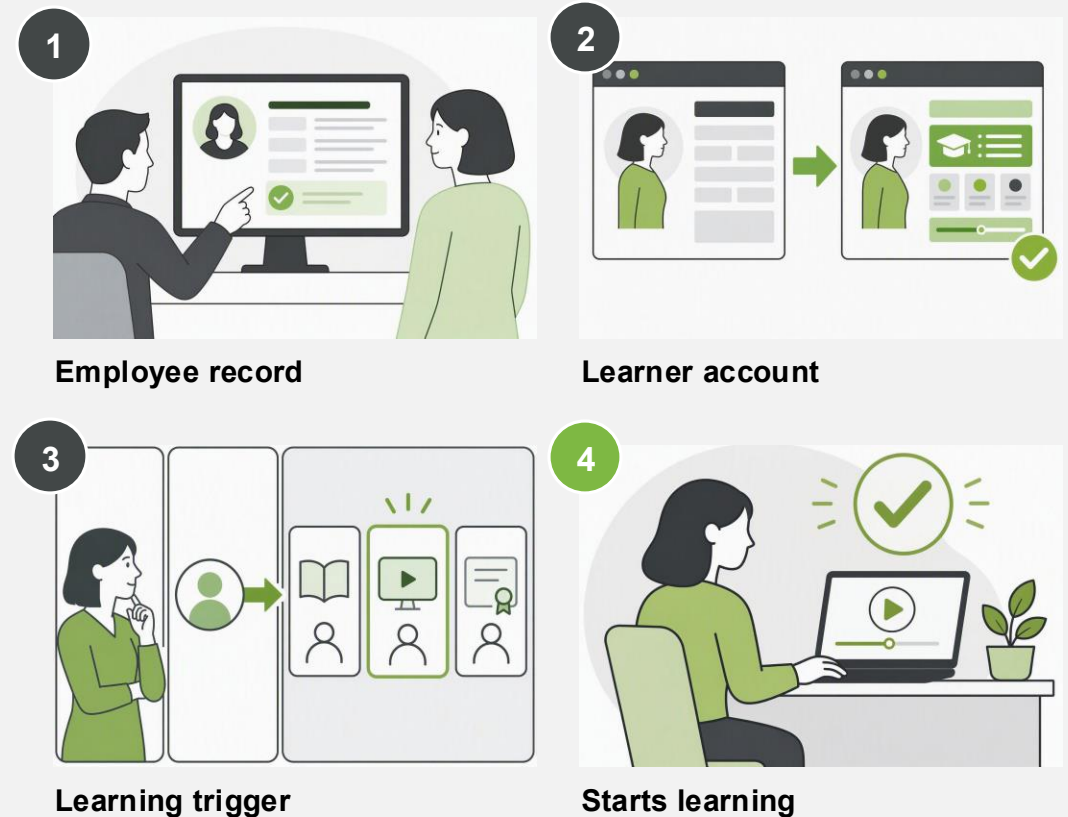

The employee story

Day 1

No waiting. No duplicate setup.

- 1 HR creates Maya's employee record in ERPx
- 2 The integration creates her learner account
- 3 Employment data trigger relevant onboarding learning
- 4 Maya signs in to Learn Plus by Docebo and starts learning

Meet Maya, a new employee whose learning journey begins

Learning moves with the employee

The employee story

A promotion or transfer updates the learning journey without restarting the process.

1

Role changes

ERPx employee data is updated

2

Profile aligns

The learner account reflects the new role

3

Learning adapts

Role-specific learning is assigned

4

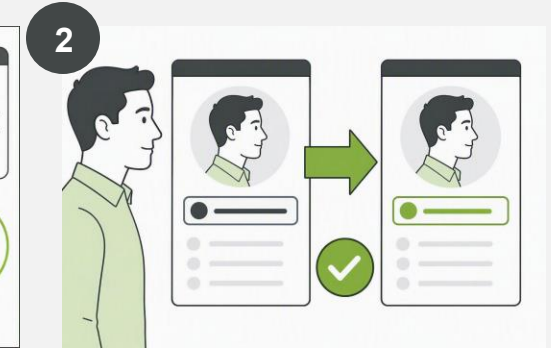

Growth continues

The employee builds capability for the new position

Meet Alex, an employee moving into a new role

Role update

Profile sync

Adaptive learning

Capability growth

The right learning finds the employee

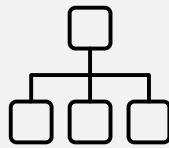

Empower every employee with learning tailored to their role, team, and your evolving business priorities.

Personalized

Recommendations and learning paths tailored to each employee.

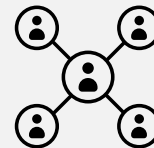

1

Flexible

Digital, instructor-led, mobile, and offline learning.

2

Engaging

Social learning, badges, and gamification that motivate.

3

Intelligent

AI-assisted content and automation that scale learning.

4

Learning is no longer a separate destination. It is a relevant next step in the employee journey.

Poll question

What will have the biggest impact on employee development in the next 3 years?

Options

A

Digital learning recommended by AI

B

Instructor-led training programs

C

Learning from colleagues and experts

D

Curated content from leading providers worldwide

E

All of the above

Demo

unit4.com

UNIT4 | docebo

Delivering end-to-end value for your organization

Employee

Relevant learning and clearer growth paths

Manager

Visibility of team progress and readiness

HR & L&D

Reduced administration and stronger reporting

Organization

Scalable development connected to business needs

Learning becomes an integrated part of workforce development, not an isolated system.

Q&A
