

Business as usual despite constant change

Coor provides Integrated Facilities Management services with employees in Sweden, Denmark, Norway, Finland and Belgium.

The Challenge

With continuous acquisitions, internal restructuring, and new and extended customer and partner agreements, Coor required a great deal of business agility.

Achievements

Fast-moving business

Change is absorbed quickly, easily, and very cost-efficiently. The business can adapt and improve processes as needed.

Focus on strategy

With no constraints due to system limitations, leadership is free to pursue business opportunities and concentrate efforts on fulfilling strategy.

No disruption

Can continue to deliver high quality service to its customers and work with its partners and suppliers, despite the constant change.

How did Unit4 help?

- Solution flexibility enables users to change the system as business structure changes.
- Flexible reporting puts no constraints on the information users can retrieve.
- Enables reconciliation and aggregation of data between Business World and other systems.

Impacts

Speed of absorbing acquisitions or changing organizational structure

Continuous company growth

Maintain quality customer experience

“

Whatever new information we need and whatever changes in direction that arise, I really never worry about Business World's ability to support us. We view our relationship with Unit4 as a trusted partnership and whichever way our strategy takes us, we consider Business World to be a core part of any changes we make.

”
