

# Your Cloud ERP journey starts here

Uncover the different steps you need to take to get up and running in the Cloud.

A high-speed journey to the Cloud

A transition process with minimal disruption

A clear project overview with full transparency

## Step 1: Engaging

- ✔ **Define your needs**  
Before starting, we'll work with you to identify the available information you have about your organization to set your migration project's initial scope and needs.
- ✔ **Cloud migration assessment**  
Your Cloud journey begins with a **Cloud Migration Assessment**. This evaluates how ready you are to move to Cloud, creating a detailed migration proposal with next steps.  
  
Doing this gives you a complete insight into your current solution environment and a clear path for you to make a move over to Cloud.
- ✔ **Solution agreement**  
Following the assessment, we provide you with a clear onboarding plan that includes your migration project with timeframes and responsibilities clearly defined upfront.

### Your solution evaluation identifies usage details like:

- ✔ Transactions and intensity overview
- ✔ Number and types of customizations
- ✔ Number and types of interfaces
- ✔ User numbers
- ✔ Processes for non-standard functionality
- ✔ Most commonly used screen views

## Step 2: Onboarding

### Plan and prepare

Kick-off meeting | Future Cloud platform creation | Migration prep

### Transform

#### 1. Cloud transformation

- ✔ System upgraded to target release

#### 3. User

- ✔ System test of updated Unit4 system
- ✔ Ensure critical business processes are running as expected

#### 2. Migrating your solution

- ✔ Compliance check
- ✔ Uplift customizations
- ✔ Perform code review and deploy database

#### 4. Validation & approval

- ✔ Support during cutover

**Deploy**  
Go live

## Step 3: Business as usual

After you go live, you will receive ongoing support from your Unit4 Customer Success Manager.

**Start your journey to the Cloud today with a Cloud Migration Assessment.**
