## Business Value Engineering Services

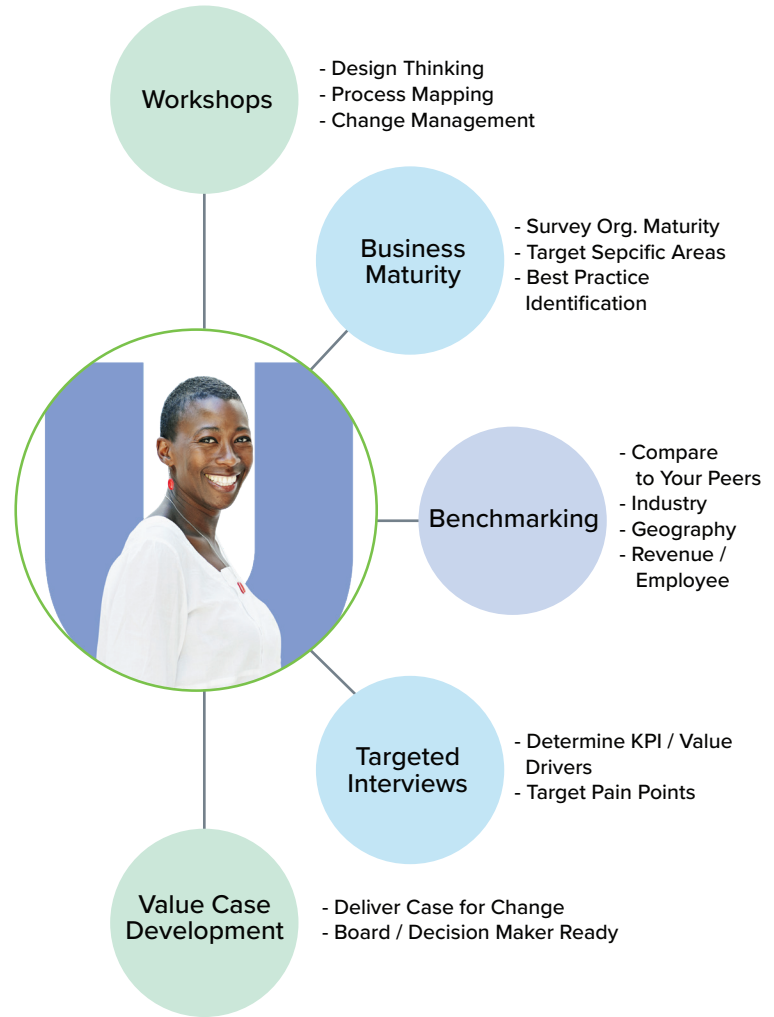

Unit4 is pleased to offer its Value4U services to our select customers interested in understanding the value they can achieve through their organization's transformation. This is a no-regrets approach to unlocking the full value of a technology-enabled organizational transformation.

Many organizations don't have the skills or resources to fully extract the value of their transformation. By engaging in this non-billable service, you are taking advantage of Unit4's expert consultants and advisors to ensure your organization is on track to realize the positive impact of your initiative.

We use a simple methodology to move from Business Strategy to desired results:

Our approach is a tailored, collaborative approach that ultimately leads to a comprehensive Case for Change. By tailored, we work with your organization to understand your capacity and recommend the right combination of offerings to work within your time and resource constraints.

Unit4 is committed to your success. We want your solutions to achieve your desired organizational results so much that we invest our resources to set you up for success from the start. We hope you will take advantage of this service offering with only the commitment of time to ensure you get the most out of your investment.
