1. Support Coverage

Standard Support Coverage

Unit4 will support standard application and technical functions that are set out in the applicable Solution Description and/or Service Description for the Unit4 Product.

Additional Support

For all other application or technical functions (including any Customisations whether provided by Unit4 or not) and/or issues or errors caused by Customer’s information systems and/or third party products or services, Unit4 may assist Customer and any third party suppliers in diagnosing and resolving issues or errors. However, Customer acknowledges that these matters are outside of Standard Support coverage. Unit4 reserves the right to charge at Unit4’s Prevailing Rates, when providing assistance in relation to these matters.

2. Named Support Contacts and Customer Service Owner

Required Named Support Contacts

The Customer will appoint at least five (5) Named Support Contacts. The Named Support Contacts must be trained on the Unit4 Product for which they initiate Cases and will provide a first point of contact and will attempt to resolve issues identified by Customer’s Users, qualifying all issues prior to raising them with Unit4 Customer Support to be logged as a Case. The Named Support Contacts are the primary point of contact with Unit4 Customer Support.

In addition, some Unit4 Products require at least two (2) Named Support Contacts for each major modular area, e.g. Financials, HR. By way of clarification, the same person may perform the role of Named Support Contact for more than one modular area, provided: (i) that they have completed the necessary training to perform the role on each modular area; and (ii) there is always at least two people trained as Named Support Contacts allocated to each modular area.

Additional Technical Contacts Required for SaaS

Further, in relation to the use of Unit4 SaaS, Customer will appoint at least two (2) of the Named Support Contacts to also be technical contacts. These technical contacts shall provide the first point of contact and will attempt to resolve technical issues (or queries) identified by the Customer’s Users.

Customer shall also appoint Customer Service Owner to be the key point of contact in relation to any time sensitive technical / service issues. It is Customer’s responsibility to provide up to date contact details for the Customer Service Owner. Unit4 shall not be liable for any failure of the Products that results from a Customer’s failure to appoint and provide the details of a Customer Service Owner.

Training Requirements for Named Support Contacts

Where, in Unit4’s reasonable opinion, a Named Support Contact requires additional training in order to satisfactorily perform their role in relation to the operation or support of the applicable Unit4 Product, a reasonable programme of additional education will be proposed by Unit4 to be undertaken at the expense of the Customer. The training courses may be online courses or face to face training provided by Unit4 staff at locations notified to the Customer by Unit4.

3. Self-Help Resources and “How to” Questions

Unit4 provides the Customer with access to on-line resources made available via the Unit4 Community, in each case in English. Customer shall register any “How to” or “How do I?” questions by raising them on the forums section of the Unit4 Community by starting a topic to discuss with peers (other Unit4 customers and Unit4 partners). This forums section will be moderated by Unit4 and (where appropriate) responded to.

4. Case Classification, Qualification, Response and Escalation

Logging Cases

Cases shall be logged in English (unless otherwise agreed). Customer’s Named Support Contacts are able to submit Cases on a 24x7 basis via the Unit4 Community or email. In addition, Cases may be submitted by telephone (on the number provided by Unit4 to the Customer from time to time) during Business Hours. The Case must be logged as either an Incident or a Service Request. Cases will be classified and handled as follows:

4.1 Incidents

An Incident will get routed to the appropriate resolution groups and Unit4 Customer Support will manage progress of the Incident towards a Resolution (in the form Unit4 deems most appropriate). Incidents will be classified in accordance with the Priority Level Designation Table.

Fig. 1 (Priority Level Designation Table)

<table>
<thead>
<tr>
<th>Priority Level Designation</th>
<th>Business Impact Assessment</th>
<th>Initial Response Time Objective</th>
</tr>
</thead>
<tbody>
<tr>
<td>Priority 1 – Critical</td>
<td>The Customer’s use of the Unit4 Product (in its production environment or the Cloud Production Environment) is stopped or so severely impacted that their entire organization cannot reasonably continue to work. For example, Customer’s organization experiences complete loss of service or the loss of operation is critical to their business and the situation becomes an emergency.</td>
<td>1 Business Hour.</td>
</tr>
<tr>
<td>Priority 2 – Major</td>
<td>One or several important business processes are disabled by the issue, causing major disruption, but it is not a Priority 1 condition.</td>
<td>2 Business Hours</td>
</tr>
<tr>
<td>Priority 3 – Normal</td>
<td>Business processes are affected by the issue, causing minor disruptions, or loss of functionality but it is not a Priority 2 condition.</td>
<td>8 Business Hours</td>
</tr>
<tr>
<td>Priority 4 – Minor</td>
<td>Business processes are basically unaffected by the issue, but it may cause minor application usability issues.</td>
<td>2 Business Days</td>
</tr>
</tbody>
</table>

Unit4 Initial Response Time Objective

Unit4 shall use reasonable endeavours to respond within the Initial Response Time Objective.

Diagnosis of Incidents

Customer shall reasonably self-diagnose each Incident and recommend a Priority Level Designation based on the business impact assessment shown in the Priority Level Designation Table. Unit4 shall confirm Customer’s Priority Level Designation, or notify Customer of a change in the Priority Level Designation to a higher or lower level with justification. If the Customer does not agree with Unit4’s classification, each Party shall promptly escalate such conflict through the Support Escalation Process, during which time the Parties shall continue to handle the Incident in accordance with the Priority Level Designation given by Unit4.

Diagnosis and Resolution (Process and Responsibilities)

Unit4 will work during Business Hours to provide a Resolution or workaround.

Customer must be available during the investigation into any Incident. The Customer will need to be able to answer inquiries from Unit4 and to provide all relevant information. This may include providing detailed step-by-step problem description, screenshots as required to reproduce the Incident.

Where Customer’s Unit4 Product is delivered on premises, the Customer may be asked to provide remote access for troubleshooting purposes. In the event of an Incident, Unit4 will use its basic remote connection (i.e. screen sharing). Any other form of remote access will be outside of Standard Support.

If the relevant information or access is not made available within the agreed timescale, it may impact Unit4’s ability to diagnose the Incident and delay a Resolution. In this case, Unit4 reserves the right to re-schedule the diagnostic work, at its convenience, when suitable Customer resources become available.

Customer is responsible for ensuring that it is permitted to share any relevant data or information with Unit4. The Customer will be able to review through the Unit4 Community: (i) whether the Initial Response Time Objective has been met and (ii) progress of logged Incidents.

Customers are obliged to test the solutions or workarounds provided by Unit4 and, if accepted by the Customer (acting reasonably), Customer will close the Incident.

Application Error Correction Obligations

Where it has been established that the cause of an Incident is an error in the application software code, the following procedures will be used to provide corrections:

- **Priority 1** – a workaround or solution will be provided to the Customer as soon as reasonably possible. In the event that an appropriate workaround or solution is not possible, then a correction will be delivered via a Hot Fix, Update or Release (as applicable) as soon as reasonably possible.

- **In the case of other errors**, Unit4 will use reasonable endeavours to achieve the following:
  - **Priority 2** – provide an accepted workaround or solution and provide a correction in a Hot Fix or the next Update if feasible to do so (in Unit4’s sole discretion);
  - **Priority 3** – provide an accepted workaround or solution and evaluate the suitability of providing a correction in an Update or Release and to do so if appropriate and feasible (in Unit4’s sole discretion);
o Priority 4 – evaluate the suitability of providing a correction in a
Release and to do so if appropriate and feasible (in Unit4’s sole
discretion).

In the event that a Hot Fix, Update or Release is made available which contains
corrections to errors that cannot otherwise be rectified in the Customer’s current
Update or Release, then the Customer will no longer receive Unit4 Customer
Support in relation to such errors. Further, Unit4 may require the deployment of
such Hot Fix, Update or Release before continuing the Resolution process.

General Disclaimer
Unit4 has no obligation to correct defects or errors relating to:

- failure of the Customer to utilise the appropriate versions of other third
  party software required to run in conjunction with the Unit4 Product as
  stated by Unit4 from time to time; or
- installation of, or Customisation to, the Unit4 Product by any person other
  than Unit4; or
- user error or incorrect use of the Unit4 Product; or
- failure by Customer to apply any workaround or solution provided or
  suggested by Unit4; or
- any fault in any hardware or software manufactured by a third party used
  in conjunction with the Unit4 Product (that is not provided by Unit4); or
- (unless otherwise agreed) Customer’s use of an unsupported Release; or
- defects or errors caused by the use of the Unit4 Product on or with
  equipment not recommended or approved in writing by Unit4.

4.2 Service Requests
Service Requests will have an initial response time of 2 Business Days after
confirmation of receipt by Unit4 of the Service Request.
Customer will be able to choose Service Requests via the Unit4 Community
using the Service Request Catalogue or submit a free-form Service Request
and (in each case) Customer must provide Unit4 with all the required
information to allow Unit4 to process the Service Request.

For the avoidance of doubt, Unit4 is not under any obligation to deliver Service
Requests.

4.3 Cases Requiring Database Changes
Where there is a need for, or Customer has requested, a data manipulation
(expressed as a SQL script) in the then the following will apply. As all Customer
Data is owned by the Customer, who is also responsible for its accuracy and
integrity, Unit4 requires specific approval by the Customer to perform the
necessary changes. Customer must provide consent prior to Unit4 taking any
corrective action or applying any changes in the Customer’s database. Unit4
will advise Customer of any steps that it needs to take and Customer must
comply with such advice. Customer acknowledges and agrees that Unit4 is not
responsible or liable, directly or indirectly, for any damage or loss (whether to
the Customer Data or otherwise) caused or alleged to be caused by or in
connection with Unit4 providing or performing any agreed changes in relation
to any Customer database change or data manipulation request.

5. Escalation and Complaint Management
If there are any disagreements or issues relating specifically to Unit4 Customer
Support, the Customer Service Owner may escalate the disagreement or issue
through the Support Escalation Process.

If Customer has a complaint in relation to Unit4 Customer Support, the Unit4
Account Representative Function will verify the complaint and manage the
process with Unit4’s internal service functions and in communication with any
applicable Unit4 suppliers or sub-contractors and the Customer.

6. Supported Releases
Current and Previous Release (N and N-1)
Unit4 always recommends that Customers use the latest Release. Customer
Support is provided for the current (N) and previous (N-1) Release of the Unit4
Product.
