

Enterprise Resource Planning Solutions for People-Centric Public Sector Organizations.

Unit4 Business World (formerly Agresso) is a fully integrated Enterprise Resource Planning (ERP) solution that is specifically designed for dynamic, people-centric organizations. Unit4 provides public sector organizations with the guarantee that financial information is always reliable and processes run smoothly even in a turbulent business environment. Unit4 offers a new breed of agile enterprise applications, built on a revolutionary People Platform, which help people work smarter, faster and more collaboratively. With our people-driven solutions, *you* make the rules.

But don't just take our word for it!

Read on for a selection of first-hand views about Unit4 Business World, from our customers who have been kind enough to share their experiences with us.

“ Unit4 Business World (Agresso) provides us with the agility to respond quickly to changes in our business, while maintaining historical information. People had lost confidence in our previous system – not only for day-to-day operations but our ability to deal effectively with an ever-changing landscape...we needed to reduce risk and Business World...delivered!”

*Heather Paul, Corporate Services IT,
Resort Municipality of Whistler*

“ Unit4 Business World’s (Agresso) greatest strength is its agility. It can grow and adapt as your business requirements change, so that you do not need to reinvest and implement a different product every five years.”

*Ken Ogden, Manager of Information Services,
City of Langley*

“ When you are reporting year-end financial statements, you build up from the detailed GL chart of accounts and cost centers. Once you have established a Financial Statement template to populate the data, you simply have to press a button to produce complete financial statements across all departments...In the past, competitive solutions took days to produce these statements...and the effort required a lot of manual interface.”

Mark Roberts, Deputy Finance Director, City of Port Moody

“ Unit4 Business World (Agresso) will provide the agility we need to respond to unexpected changes in the future. Public Housing and the Section 8 program are both highly regulated and Congress often tweaks the regulations from one year to the next. Some of these tweaks can be ... an enormous burden on our finance team. With Business World, we will be able to adapt to changes like these with ease, and focus our time and attention on our mandate.”

Craig Violante, Director of Finance, King County Housing Authority

“ When you add all the savings up, we’re talking about collectively saving what amounts to hundreds of thousands of dollars, and supporting growth needs using resources once spent elsewhere.”

*Bev Burnette, Manager, Financial Business Support
and Accounts Payable, Township of Langley*

“ Moving to a financial system like Unit4 Business World (Agresso) will eradicate inefficiencies and help us see one single version of the truth while managing budgets, which translates into faster and better decision-making and improved service to the public. Because Business World’s architecture was designed from the ground up to be flexible, it offers the post-implementation agility necessary to support the City’s future requirements and growth.”

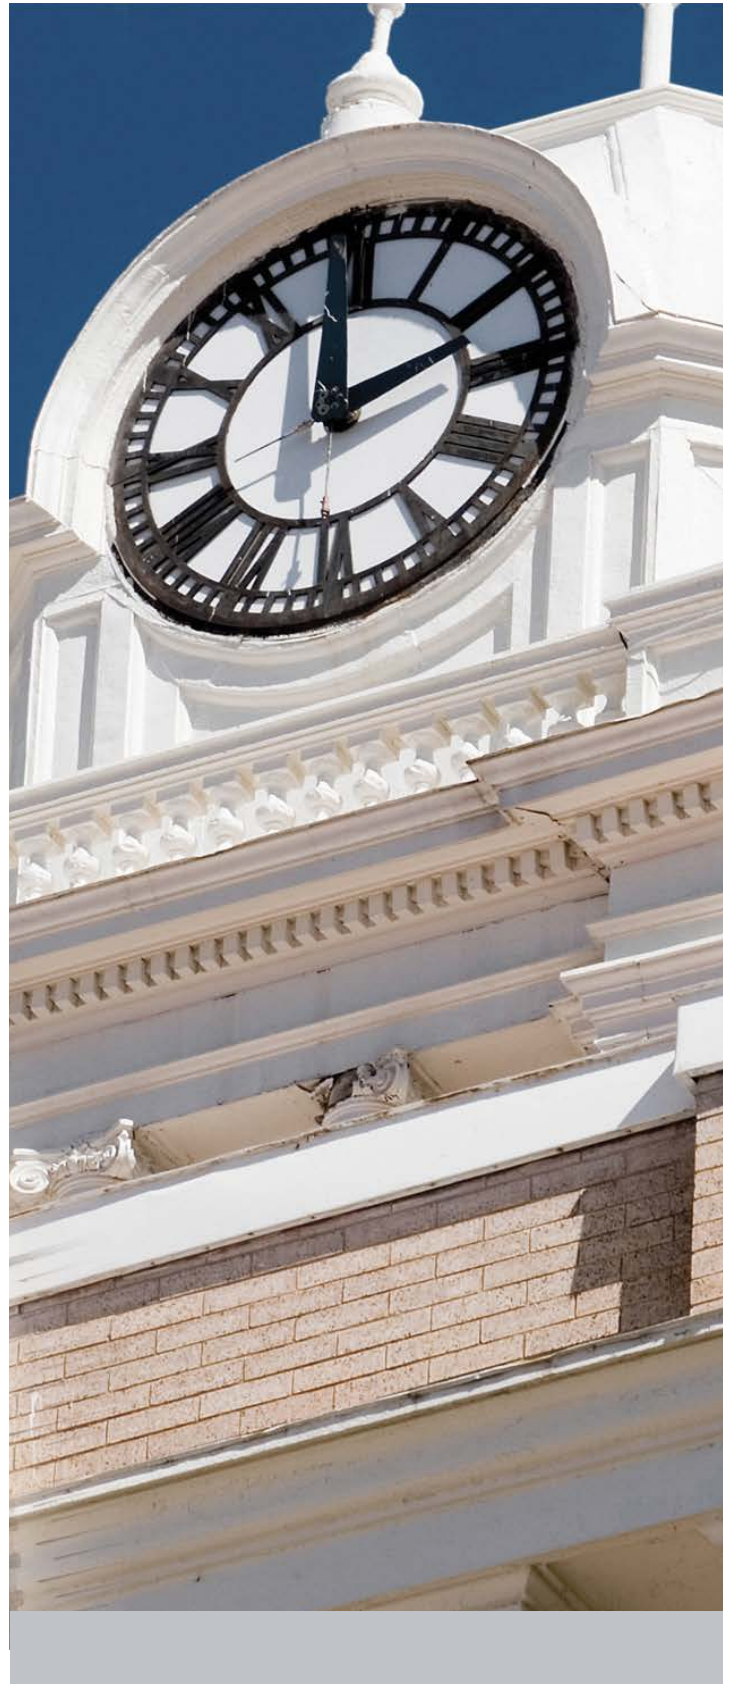

*Colin Fisher, Controller, **City of Penticton***

“ We have had at least two reorganizations in the city since we’ve been on Unit4 Business World (Agresso) and each time we’ve been able to make all the changes to the standard reports as well as to all of the hierarchies as we have wanted, and we were able to do so quickly.”

*Stephen Smith, Manager of Information Services, **City of Port Moody***

“ As the City of Port Coquitlam grows and changes, we need business solutions that are flexible enough to allow us to transform the services we provide to our citizens. Unit4 Business World (Agresso) is designed to support the city as we conduct business as we see fit and affords us the power to quickly and easily adjust to new circumstances as they arise.”

*Robin Wishart, Director of Corporate Support **City of Port Coquitlam***
