

Get the right people to the right place at the right time

People Planner provides the complete picture of your people's skills and availability, enabling you to plan and manage their involvement in projects in a highly efficient way.

Through stunning design, fine-tuned functionality and outstanding usability, it significantly improves your organization's ability to assign resources to projects. Benefiting from the rich functionality of Unit4 Business World On!, it redefines the process of people scheduling, giving you an instant ability to align projects and people and enabling a swift reaction to project changes.

People Planner presents clear, easily accessible information in screens that have been specifically designed with input from human resource managers, project managers and the resources themselves, including consultants, engineers, researchers and technicians. Feedback and animations add even more clarity, while collaboration and chat features mean that you can involve your colleagues to get the picture you need, when you need it – even in times of change.

Rapid, effective and engaging

Get a complete picture to maximize your people investment

With all the information about project commitments, ad hoc tasks and absences at your fingertips, you can optimize resource utilization, move tasks across time and resources, and eliminate outsourcing costs.

Search for, find and assign the best people

Using the rich functionality of the Unit4 Business World On! HR module, you can instantly find and assign the best people available for a task, ensuring those with the strongest skill-set and competencies are used in a project.

Analyze utilization of all your people resources instantly

You can easily analyze utilization against a configurable target, while a key performance indicator that dynamically changes with the person and timespan you've selected helps you manage your people optimally.

Easily absorb changes made elsewhere in Business World On!

Changes made in the core HR module about a person's skills, where they or their department sits in the organization structure, etc. are immediately reflected in People Planner so you can plan projects based on completely up-to-date information.

Unified people and project planning

People Planner and Project Planner work seamlessly together, so assignment of people to tasks and projects can be tightly managed in line with the needs of your organization. Now it's easy to monitor utilization and availability across the entire organization, and ensure your organization gets the best return from its investment in its people.
