Campus Analytics

Intensive Training

Level: End User

Time: 9:00 – 17:00

Instructor: Chris Grisham & Ken Harris Jr.

This intensive training session features the new Campus Analytics tool from our partners at eMobileCampus. In this session, you will learn from industry leaders in higher education reporting and analytics. We will walk through the newly designed Analytics engine from start to finish and will demonstrate our new enhanced dashboards and reports.

Hands-on instruction is provided to the end user to create your own datasets, author elaborate visuals and dashboards to deliver value to your institution. We will publish reports to the Campus Analytics service to share and deploy on mobile devices. Note that your institution does not need to license this tool prior to the workshop. Unit4 is targeting the release of Campus Analytics following the conference! Don't miss your opportunity to get intensive training for this indispensable functionality!

CAMS Advanced Reporting and Mass

Data Operations

Intensive Training

Level: End User

Time: 9:00 – 17:00

Instructor: TJ Davis & Tracy Dale

This intensive training session features the power of Advanced Reporting and Mass Data Operations from our partners at 3D Technologies. Two modules will be offered during this session.

The first module covers how to use Microsoft SQL Server Reporting Services (SSRS) to make Unit4 CAMS Enterprise reports. It includes CAMS Enterprise Database relationships, commonly used fields, sample datasets, and how to allow end users to do customer reporting. Best practice for implementing SSRS and a SSRS Reporting structure will also be covered.

The second module features using SSRS to build mass data update routines based on lessons learned in the first module and focuses on how to update data in CAMS. Sample datasets and usage recommendations are included. This workshop is a must for any IT professional seeking to maximize the use of Unit4 CAMS Enterprise.
